• Google Classroom • Report Card	1. Abstract Art 2. Drawing and painting techniques 3. Art History 4. Visual presentations 5. New art vocabulary <i>*topics may be subject to change</i>	

Visual Arts will help guide students in creating their own personal work. Various art-making techniques will be explored to further each individual's artistic practice. All QEP competencies will be taken into account for evaluations while respecting the progression of learning throughout the year for each individual project. The accumulation of marks will result in the final grade with each completed project following the guidelines and requirements.
